

1 GALLON = 250 SQ. FEET

NOT AN ACID

ZERO VOC

# CLEAN CONCRETE **10x** FASTER WITH EASE

## 1.) APPLY

## 2.) ALLOW TO DRY

AS TRIPLE CROWN DRIES, IT CAPTURES DIRT AND GRIME, PREVENTING THEM FROM RE-ATTACHING TO THE CONCRETE'S INNER WALLS UNTIL YOU'RE READY TO RINSE THEM AWAY.

TO RINSE, USE A GARDEN HOSE WITH A SPRAY-NOZZLE ATTACHMENT ON THE HIGHEST PRESSURE SETTING.

## 3.) RINSE

## **CAUTION:** 100% SIMPLE

MAKE COSTLY AND TIME- CONSUMING PRESSURE WASHING A THING OF THE PAST! TRIPLE CROWN REMOVES TOUGH STAINS AND GRIME FROM SIDEWALKS, PATIOS, DRIVEWAYS... ANYTHING CONCRETE!

## PRODUCT INFORMATION

*“A One-Step Clean & Etching Product for Concrete and Masonry Surfaces”.*

### Application

TripleCrown is a very special cleaning product. In addition to being a one-step prep product for the application of Encore’s line of concrete coatings, nothing’s better at restoring the beauty of stone building exteriors, walls and other structures. No matter how filthy and grimy, TripleCrown makes floor areas in bus garages, loading docks, transit platforms, dumpster pads, machine shops, factories and warehouses look brand new. In fact, because of it’s ease of use, TripleCrown is one of the most versatile cleaners available.

Since it’s not an acid-based product, TripleCrown is the perfect addition to any line of cleaning products. Despite it’s phenomenal cleaning power, it’s not classified as a hazardous material, therefore making it very easy to stock and ship.

### Ease of Use

Simply apply TripleCrown with a low-pressure sprayer, give it time to work and rinse with water. No special equipment is required, and TripleCrown can be left on concrete to dry without harm. TripleCrown does everything necessary to clean and prepare concrete for sealing or coating.

### How it Works/What to Expect

TripleCrown’s zero-VOC and biodegradable organic formula penetrates deep into the pores of concrete, breaking down grease and oil and releasing it, so it can be rinsed away with water. TripleCrown also neutralizes all present alkalis that attack coatings and cause pop up. Finally, because TripleCrown does not erode masonry surfaces like acids and blasting methods, it leaves a superior base for bonding.

### More Information:

Manufacturer:  
Encore Coatings, LLC  
Cartersville, GA 30120

UPC: 852763003121

Packaging:           1 Gallon F-style
